

WASH-DOWN PACKAGES FOR END RIDER AND WALKIE UNITS

Protect your equipment with the durability of galvanized steel designed especially for corrosive environments and frequent wash-downs.

	Extreme Corrosion Wash-Down Package Operating Temperatures: 0°F to +120°F	Standard Wash-Down Package Operating Temperatures: 0°F to +120°F
Galvanized frame and lift linkage <ul style="list-style-type: none"> Coating protects against corrosion better than paint – “dipped,” not sprayed 	✓	
Lubrication – Freezer hydraulic oil <ul style="list-style-type: none"> Lower viscosity (fluid thickness) allows the oil to flow more easily in cooler/freezer temperatures 	✓	✓
Sealed traction controller <ul style="list-style-type: none"> Prevents intrusion from water or contaminants 	✓	✓
Electric brake enclosure <ul style="list-style-type: none"> Prevents intrusion from water or contaminants 	✓	✓
Corrosion inhibitor on unpainted surfaces of drive wheel and MDU <ul style="list-style-type: none"> Prevents corrosion and rust from forming 	✓	✓
Special lubricants applied to battery rollers when ordered <ul style="list-style-type: none"> Synthetic grease – Performs better and lasts longer in freezer temperatures Dielectric grease – Repels moisture and protects electrical connections against corrosion White lithium grease – Heavy-duty, weather resistant, temperature resistant 	✓	✓
Stainless steel load wheel bearings recommended <ul style="list-style-type: none"> Prevents corrosion and rust better than carbon steel 	✓	✓
Excelite HTX bushings <ul style="list-style-type: none"> Self-lubricating; no need to add lubrication 	✓	✓
Blue AHF dye <ul style="list-style-type: none"> Helps to identify hydraulic system leaks 	✓	✓

PACKAGES AVAILABLE FOR THESE UNITS:

B60-80ZHD2 End Rider Forklift Trucks

- Not available on the B60ZAC2
- Red polyurethane tires recommended
- Not compatible with UL “EE”

W45ZHD2 Motorized Walkie Pallet Truck

- For use with 9” battery compartment only
- Red polyurethane or rubber drive tires recommended
- Not compatible with UL “EE”

W65-80Z Motorized Hand Trucks

- Not available with the W60Z
- Rubber drive tires recommended
- Not compatible with UL “EE”
